

Halves

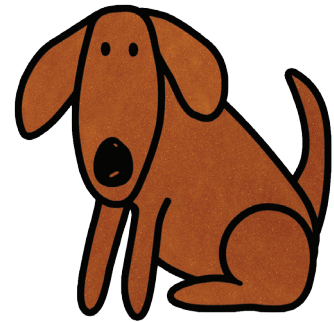

When you have half of something, this means it is split into two equal parts called halves. These are types of fractions.

A fraction is part of a whole.
If you have a whole pizza
and you slice it into pieces,
each slice becomes a fraction
of the whole pizza.

This pizza is split into halves.

Start by
looking at
the pizza
example.

This is how we write a half as a fraction.

$$\frac{1}{2}$$

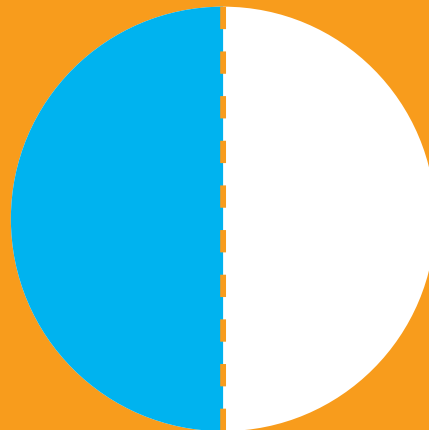

The top number is
one slice of pizza.

The bottom number
is how many slices the
pizza was cut into.

Fractions can be written as words or numbers.
Trace over the numbers and words for fractions.
